Project and Cost Management
Consultancy

people who perform, principles that deliver

About CPC

Established over 30 years ago, CPC Project Services Limited (CPC) is an award-winning consultancy providing project, cost and programme management services to the property & construction and transport & infrastructure industries.

We are proud to be an employee-owned trust, owned and operated by our employees, with no controlling parent company or shareholders.

Based in the UK, we cover the length and breadth of the country and have delivered over 4,000 successful projects to date. Our experience is in Residential, Commercial, Transport, Science & Education, Retail, Local Government, and Health sectors.

We are the 9th largest project management consultancy in the UK delivering major capital and infrastructure projects and transforming organisations. Above all, we are client focussed, agile, results-driven and work in partnership to help our clients succeed.

Accreditations & Memberships

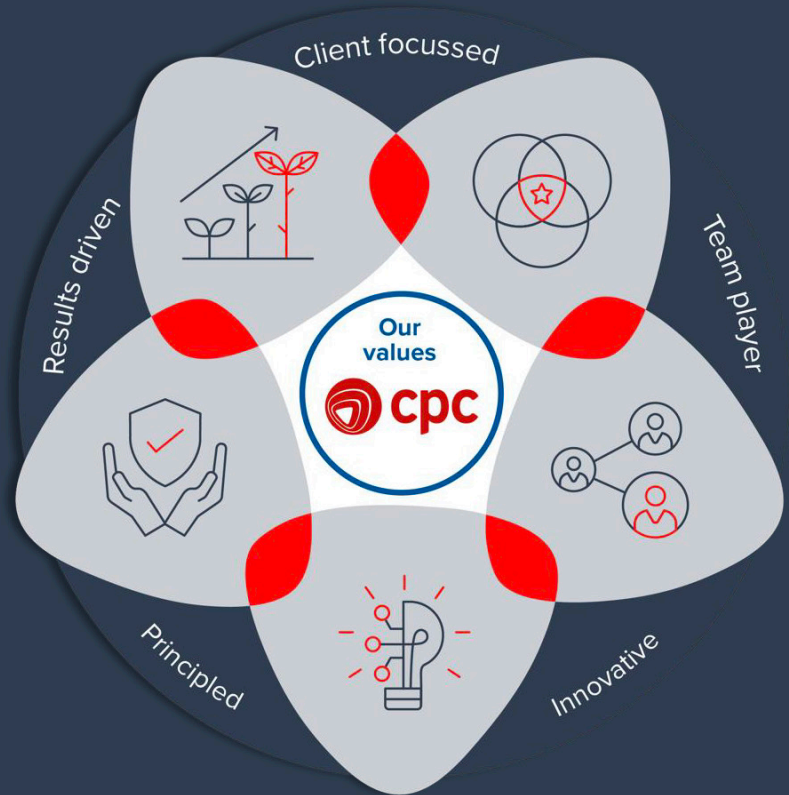

Our vision & values

CPC offers highly skilled consultants and teams, driven by a shared set of values that bring exceptional performance and tangible results for our clients.

Through our client focussed and results-driven approach, we are trusted advisors, with a strong sense of responsibility for the projects in which we are involved. We care about the broader communities impacted by our work.

We're a vibrant, dynamic and entrepreneurial team with the agility and flexibility to build tailored services, and the knowledge and experience to deliver superior customer value.

Our vision is to be recognised as the best independent project and cost management consultancy in the UK.

tomorrow*

Our clients & frameworks

We are working with over 120 clients across the public and private sectors, working on projects and programmes that are creating a positive impact on our communities and the environment.

We are a preferred supplier on over 40 frameworks, Dynamic Purchasing Systems (DPS) and technical expert panels.

Our strategic markets

Over the next 5-10 years our strategic markets will support our ambitious growth plans to retain our independence and double market share. We will deliver best-in class services to enhance how we live, learn, work, play, connect and innovate.

In each of these markets, CPC has a proven track record for success. Our understanding of the product, regulatory environments and successful delivery models enables us to provide enhanced value outcomes for our clients.

Enhancing mobility and transport interchange development

Building complex facilities for tomorrow's world

Enabling digital solutions to drive optimal performance

Shaping places for live, learn, work, and play

Delivering sustainable and socially responsible projects

people who perform, principles that deliver

CPC is built around three key themes:

People

We are committed to
service excellence & collaboration

Performance

We deliver results &
exceptional value outcomes

Principles

We have a framework for
responsible action & conduct

With over 35% staff growth in 2023, CPC will continue to work tirelessly to attract and retain the best talent in our industry, as an inclusive employer of choice.
